

INTERVENTIONAL PULMONOLOGY

Capping

For capping trials do not use the white tip inner cannula.
Please continue being active while capping.

- Cap for 1 hour per day for 4 days
- Cap for 2 hours per day for 4 days
- Cap for 4 hours per day for 4 days
- Cap for 8 hours per day for 4 days
- Cap for 16 hours per day

Do not cap when sleeping

When complete first day of 16 hours, contact the
Interventional Pulmonology office at (313) 916 - 3650.
